PREMIUM QUALITY #VAPE JUICE

ENTER A NEW WORLD OF VAPING EXPERIENCE

10 Millilitres

NIC SALT REVOLUTION

An innovative alternative to freebase nicotine, nic salts have revolutionised the vaping industry. Our 10ml vape juice is fast acting in the bloodstream and most satisfying in higher concentrations. There is a moderate flavour complexity with constrained cloud production; best for mouth-to-lung vapers, perfect for beginners and best to be used with lower wattage vape devices.

Standard 50:50

CLASSIC PG-VG RATIO

Propylene Glycol (PG) and Vegetable Glycerine (VG) are the base of all e-liquids. The ratio relates to the thickness of the liquid, the throat hit and the vapour clouds produced. Simply put, PG carries the flavour and throat hit sensation, VG adds sweetness, smoothness and the main producer of vape clouds.

50:50 PG/VG is the “golden ratio of vaping”. The optimum. You can expect to experience an incredible balance between flavour, throat hits and cloud production that will keep you satisfied all day long.

10 mg/ml

20 mg/ml

NIC STRENGTH VERSATILITY

If you're looking for a smooth transition when making the switch from smoking to vaping the correct nicotine strength can define your experience. If you're not achieving the nicotine hit you're used to, you could return to cigarettes, and too high a strength you could end up with a nic headache!

This is why Bar Fuel 10ml e-juice delivers both 10mg and 20mg nicotine strengths ideal for light and heavy smokers that are gloriously balanced with a 50:50 PG/VG ratio. Prepare for a solid throat hit and tonnes of flavour.

Blue Razz

Triple Mango

Red Apple Ice

Pink Ice

...and more

10 AWESOME FLAVOURS

BAR FUEL STORY

Bar Fuel's inception came from a need to move to a more sustainable way of vaping. You can become an environmentally friendly vaper by simply switching from disposables to refillables and using Bar Fuel's 10ml e-liquid.

A much more cost-effective approach, with 1 bottle of Bar Fuel equal to 5 disposables! And with 10 flavours to choose from you can satisfy your cravings, ignite your taste buds and feel good all day long.

...

Fuel Your Life.
